

APPLICATION TO APPROPRIATE WATER
STATE OF UTAH

41-3217

NOTE:—The information given in the following blanks should be free from explanatory matter, but when necessary, a complete supplementary statement should be made on the following page under the heading "Explanatory."

For the purpose of acquiring the right to use a portion of the unappropriated water of the State of Utah, for uses indicated by (X) in the proper box or boxes, application is hereby made to the State Engineer, based upon the following showing of facts, submitted in accordance with the requirements of the Laws of Utah.

1. Irrigation Domestic Stockwatering Municipal Power Mining Other Uses
2. The name of the applicant is Interstate Irrigation and Reservoir Co.
3. The Post Office address of the applicant is McKinnon, Wyo. 82938 c/o Milton Beck, Pres.
4. The quantity of water to be appropriated second-feet and/or 676 acre-feet
5. The water is to be used for Irrigation from April 1st to October 1st
(Major Purpose) (Month) (Day) (Month) (Day)
- other use period from to
(Minor Purpose) (Month) (Day) (Month) (Day)
- and stored each year (if stored) from Jan 1st to Dec 31st
(Month) (Day) (Month) (Day)

6. The drainage area to which the direct source of supply belongs is
(Leave Blank)

7. The direct source of supply is* Lost Creek
(Name of stream or other source)
which is tributary to underground drainage, tributary to unknown

*Note.—Where water is to be diverted from a well, a tunnel, or drain, the source should be designated as "Underground Water" in the first space and the remaining spaces should be left blank. If the source is a stream, a spring, a spring area, or a drain, so indicate in the first space, giving its name, if named, and in the remaining spaces, designate the stream channels to which it is tributary, even though the water may sink, evaporate, or be diverted before reaching said channels. If water from a spring flows in a natural surface channel before being diverted, the direct source should be designated as a stream and not a spring.

8. The point of diversion from the source is in Summit County, situated at a point*
North 1520 feet and East 1645 feet from the Southwest corner
of Section 18, T2N, R17E, SLBM

*Note.—The point of diversion must be located definitely by course and distance or by giving the distances north or south, and east or west with reference to a United States land survey corner or United States mineral monument, if within a distance of six miles of either, or if at a greater distance, to some prominent and permanent natural object. No application will be received for filing in which the point of diversion is not defined definitely.

9. The diverting and carrying works will consist of Earth fill dam at Beaver Meadows site.
carrying ditches.

10. If water is to be stored, give capacity of reservoir in acre-feet 2461 height of dam 42'
area inundated in acres 135 legal subdivision of area inundated parts of NW $\frac{1}{4}$ -W $\frac{1}{2}$ NE $\frac{1}{4}$,
part of NW $\frac{1}{4}$ of Section 18, T2N, R17E, SLBM

11. If application is for irrigation purposes, the legal subdivisions of the area irrigated are as follows:
See explanatory

Total 2030.19 Acres

12. Is the land owned by the applicant? Yes No If "No," explain on page 2.

13. Is this water to be used supplementally with other water rights? Yes No
If "yes," identify other water rights on page 2.

14. If application is for power purposes, describe type of plant, size and rated capacity.

15. If application is for mining, the water will be used in Mining District at the mine, where the following ores are mined

16. If application is for stockwatering purposes, number and kind of stock watered

17. If application is for domestic purposes, number of persons or families

18. If application is for municipal purposes, name of municipality

19. If application is for other uses, include general description of proposed uses

20. Give place of use by legal subdivision of the United States Land Survey for all uses described in paragraphs 14 to 19, incl.

21. The use of water as set forth in this application will consume second-feet and/or acre-feet of water and second feet and/or acre feet will be returned to the natural stream or source at a point described as follows:

Dam improvements - Reservoir Enlargement.
